Bromoxynil; Pesticide Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This document establishes a time-limited tolerance, to expire on April 1, 1997, for residues of the herbicide bromoxynil (3,5-dibromo-4-hydroxybenzonitrile) resulting from the application of its octanoic and heptanoic acid esters in or on the raw agricultural commodity (RAC) cottonseed (transgenic BXN varieties only) at 0.04 part per million (ppm). Rhone-Poulenc AG Co. submitted petitions requesting EPA to establish the maximum permissible residue of the herbicide in or on the RAC.

EFFECTIVE DATE: This regulation becomes effective May 24, 1995.

ADDRESSES: Written objections, identified by the document control number, [PP 3F4233/R2134], may be submitted to: Hearing Clerk (1900), Environmental Protection Agency, Rm. SUPPLEMENTARY INFORMATION: In the **Federal Register** of March 29, 1995 (60 FR 16111), EPA issued a proposed rule that gave notice that the Rhone-Poulenc AG Co., P.O. Box 12014, 2 T.W. Alexander Drive, Research Triangle Park, NC 27709, had submitted a pesticide petition, PP 3F4233, to EPA proposing to amend 40 CFR 180.324 by establishing a regulation to permit residues of the herbicide bromoxynil (3,5-dibromo-4-hydroxybenzonitrile) resulting from the application of its octanoic and heptanoic acid esters in or on the raw agricultural commodity (RAC) transgenic cottonseed at 0.04 ppm. There were no comments or requests for referral to an advisory committee received in response to the notice of filing.

The tolerance will expire on April 1, 1997. Based upon the evaluation of a mouse carcinogenicity study currently under review and submission of an analytical method, residue data, and livestock metabolism study on the metabolite, the Agency will determine whether establishing permanent tolerances is appropriate. Residues remaining in or on the raw agricultural commodity after expiration of this tolerance will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the conditional registration.

There were no negative comments or requests for referral to an advisory committee received in response to the proposed rule.

The data submitted with the proposal and other relevant material have been evaluated and discussed in the proposed rule. Based on the data and information considered, the Agency concludes that the time-limited tolerance will protect the public health. Therefore, the time-limited tolerance is established as set forth below.

Any person adversely affected by this regulation may, within 30 days after publication of this document in the **Federal Register**, file written objections and/or request a hearing with the Hearing Clerk, at the address given above (40 CFR 178.20). A copy of the objections and/or hearing requests filed with the Hearing Clerk should be submitted to the OPP docket for this rulemaking. The objections submitted must specify the provisions of the regulation deemed objectionable and the grounds for the objections (40 CFR 178.25). Each objection must be accompanied by the fee prescribed by 40 CFR 180.33(i). If a hearing is requested, the objections must include a statement of the factual issue(s) on which a hearing is requested, the requestor's contentions on such issues, and a summary of any evidence relied upon by the objector (40 CFR 178.27). A request for a hearing will be granted if the Administrator determines that the material submitted shows the following:

There is a genuine and substantial issue of fact; there is a reasonable possibility that available evidence identified by the requestor would, if established, resolve one or more of such issues in favor of the requestor, taking into account uncontested claims or facts to the contrary; and resolution of the factual issue(s) in the manner sought by the requestor would be adequate to justify the action requested (40 CFR 178.32).

A record has been established for this rulemaking under docket number [PP 3F4233/R2134] (including any objections and hearing requests submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Room 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Written objections and requests for hearings, identified by the document control number [PP 3F4233/R2134], may be submitted to the Hearing Clerk (1900), Environmental Protection Agency, Rm. 3708, 401 M St., SW., Washington, DC 20460.

A copy of electronic objections and requests for hearings can be sent directly to EPA at:

opp-Docket@epamail.epa.gov

A copy of electronic objections and requests for hearings must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this rulemaking, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer any objections and hearing requests received electronically into printed, paper form as they are received and will place the paper copies in the official rulemaking record which will also include all objections and hearing requests submitted directly in writing. The official rulemaking record is the paper record maintained at the address in ADDRESSES at the beginning of this document.

Under Executive Order 12866 (58 FR 51735, Oct. 4, 1993), the Agency must determine whether the regulatory action is "significant" and therefore subject to review by the Office of Management and Budget (OMB) and the requirements of the Executive Order. Under section 3(f),

the order defines a "significant regulatory action" as an action that is likely to result in a rule (1) having an annual effect on the economy of \$100 million or more, or adversely and materially affecting a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities (also referred to as "economically significant"); (2) creating serious inconsistency or otherwise interfering with an action taken or planned by another agency; (3) materially altering the budgetary impacts of entitlement, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or (4) raising novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in this Executive Order.

Pursuant to the terms of the Executive Order, EPA has determined that this rule is not "significant" and is therefore not subject to OMB review.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).
